

International CHEETAH DAY

DECEMBER 4th, 2024

CHANGE THE WORLD TO
SAVE THE CHEETAH

**THE CHEETAH IS AFRICA'S MOST
ENDANGERED BIG CAT**

The fastest land mammal in the world,
critical to its ecosystem, is
threatened across its rangeland.

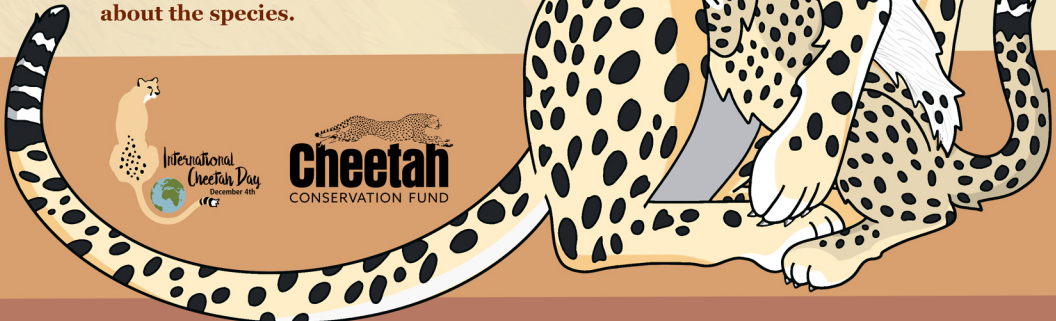

There are fewer than
7,500
cheetahs remaining
in the wild.

**3 MAIN THREATS
TO SURVIVAL:**

Human-wildlife conflict
Illegal pet trade
Habitat loss

The cheetah needs **YOUR** help on
International Cheetah Day.

Visit www.internationalcheetahday.com
or www.cheetah.org to learn more
about the species.
